| Variety | Clone | Number of cuttings |
|---------|-------|--------------------|
|         |       |                    |
|         |       |                    |
|         |       |                    |
|         |       |                    |

I agree to pay a non-refundable payment for PCR testing: Please indicate by ticking the PCR testing option you would prefer.

**Option 1:** \$250 Non refundable PCR test. In the event of a positive PCR test for anything other than GRSPaV the material will not be available.

**Option 2:** \$80 Non refundable PCR test. I acknowledge that the testing for option 2 will be carried out in late November and I agree to destroy the material if the PCR results are positive for anything other than GRSPaV .

I also agree to pay a cutting cost of \$2.00 per cutting (minimum charge \$100 per variety); an administration charge of \$50 per order and any associated costs such as plant health certificates, hot water treatment and postage.

I understand that I will be required to sign a supply agreement before receiving this material.

I also understand that I will be required to pay for the cost of the PCR testing prior to testing and 50% of any other costs prior to the cuttings being taken.

I will be responsible for organising any import permits which may be required and inform AVIA of their responsibilities in regard to organising cutting dispatch.

Signed:
